Director of the Coin Cabinet,
Copenhagen, Denmark

Dear Sir:

In one of our forthcoming publications we propose to treat of the coinage of Maroneia. May I ask whether there are in your Cabinet any specimens of the coinage of this city; that is, of tetradrachms. We are particularly desirous of locating the Benson Sale Nos. 457 and 458, and the Bunbury Sale No. 584, and any pieces of a like nature. I should very much appreciate your coöperation, and trust that my request will not lay you under too great a burden.

One of our members who visited your city recently, Mr. Hoyt Miller, reported having been most courteously received and having enjoyed a delightful visit to your Cabinet.

Under separate cover I take pleasure in sending you for your library a copy of the latest of our publications.

Very truly yours,

Secretary.

Dear Sir,

Pursuant to your letter of the 6th inst. the Royal Collection has sent you plaster casts of the 14 tetradrachms of Maroneia here present. The bulk of them are purchased in Athens and Smyrne and nobody originates in acquainted collections.

In the name of the Collection I beg to thank you very much for kindly sending your interesting paper on the coinage of Metapontum.

With my best compliments of the season

Dear Sir:

Thank you for the letter and for the casts of Maroneia coins which reached us. They are a highly important lot and we greatly appreciate your kindness in sending them.

May I impose further on your kindness: One of our members is preparing a work on the decadrachms of Euanaitos. Might we have casts of any pieces in your collection? Also, if you have any drachms or tetradrachms of Thasos, with the Dionysos head obverse and kneeling Hercules reverse, I should be very grateful if you would include them.

It would please me very much if you would permit that we bear the cost of making these casts; but, if you would prefer it, we should be very glad to send any of the monographs of our list as a return for your courtesy, if you will indicate which you desire.

Again thanking you for your kindness, I am

Dear M. Galster:

Herewith I am enclosing a formal acknowledgment of receipt of the valuable catalogue of L. E. Bruuns: Mont-og Medaille Samling, which reached our hands on Saturday last. Just a few days before this we had an inquiry regarding this publication by Mr. Robert J. Kidlitz, and I asked him when he wrote you to say that we had not received it. I have since informed him that the catalogue is here. Permit me to express my thanks for this splendid addition to the shelves of our Library, which promises to be of great usefulness.

Dear Calster:

Will you be so good as to send me a
cast of the Corinthian bronze coin described in the
Journal International D'Archéologie for 1898 (Vol. II
page 100, No. 12? This specimen is described by Mr.
Fox as being apparently unique and we should very much
like to have a cast of it, for comparison with a coin
recently found at Corinth, which seems to be similar.
If this piece is not in the Cabinet in your care, would
you be so kind as to make an inquiry whether it is in
the other collections in your city? With appreciation
for previous favors, I beg to subscribe myself

Keeper of Coins and Medals

Den Kongelige Mont-og Medaillesamling,

Dear Galster:

In connection with work which is being done here, we very much desire to have casts of the Tarentum coins listed in Evans', "Morsemen of Tarentum", under his periods IV and V, as well as the staters of Metacles in Lucania for its entire period of coinage. Will you be so good as to communicate to me the number of pieces involved and the cost of having casts or wax impressions of these made. If it will be simpler to have sealing wax impressions made rather than the casts, this would be entirely satisfactory. We, however, wish to be permitted to bear any expense whatever that may be attached to the making of these impressions or casts. Thanking you for your previous courtesies, I beg to subscribe myself,

Very truly yours,

Dear Galster:

Your very kind letter of February together with the sealing wax impressions of coins of Tarentum and Heraclea have been duly received. Thank you very much indeed. I note the number lacking in your file of Numismatic Notes and Monographs and your proposal to exchange publications of the Danish Numismatic Society. I believe this can be arranged and we are very glad to accept your proposal. We should be very glad to have the items listed below and I have made a selection of our monographs which are not out of print from the list which you have given me,:

Medlemsbladet Bd. VII, VIII
H. H. Schou, Udvalgte Monter. Med Tavler og Prislister
L. E. Bruuns, Doubletsamling. Med Tavler og Prislister.
Vilh. Bergsøe, Danske Medailler. Tillæg alene.
Bæmus' og Devegges ufuldendte Værk.

Will you be so good as to inform me whether the items listed under L. E. Bruuns and Svenske Samling are identical with the catalogues issued by Hess in 1914 and Høe in 1925? If they are not then we should be very glad to have them as well.

Will you be so good as to let me know the number of silver coins of Poseidonia in your collection and also similarly the number of silver coins of Caulonia.

Again thanking you for your kindness in sending the wax impressions to me and with assurances of my personal regard, I beg to subscribe myself
